Greg,

Here's an invite to talk about our meeting with TCEQ.

I am attaching three PowerPoints.

“Tank Venting Case - Chesapeake” is from ERG/Clearstone/David Picard (I also included the notes from this presentation), describing the findings from the Chesapeake R5 analysis.

“PDC 101 – presentation” is from Ginny Sorrell, comparing the PDC settlement to the Noble settlement, for an internal EPA audience.

And “TCEQ ONG presentation” is a draft hybrid of the two presentations, where I attempt to tie each aspect of the draft 114 to the design analysis.

Please take a look at the attached files and let’s plan to meet on Thursday afternoon.

I think we may also want to include some visuals (pictures and/or IR camera videos).

Thanks,

Dan
